

Governor's Office of Highway Safety

State of Arizona

Tribal Relations Progress Report for 2021

Alberto C. Gutier

Director and

Governor's Highway Safety Representative

MISSION STATEMENT

The Arizona Governor's Office of Highway Safety (GOHS) is the focal point for highway safety issues in Arizona. GOHS provides leadership by developing, promoting, and coordinating programs that influence public and private policy by increasing public awareness of highway safety issues. Funded programs target speed reduction, decreasing impaired driving, increasing seat belt and child safety seat usage as well as motorcycle safety awareness and driver distractions that cause traffic fatalities and injuries on our streets and highways. GOHS provides grant funding to law enforcement agencies, fire departments, and non-profit organizations throughout Arizona.

STATE GRANTS

DUI Abatement Fund

Prop 207 Fund

FEDERAL GRANTS

For FFY 2021, Arizona had the following Federal Grants available for each Tribal Nation to apply.

405b – Occupant Protection

405C – State Traffic Safety Information System Improvements

405d – Impaired Driving Countermeasures

405d II – Alcohol – Ignition Interlock Law

405f – Motorcyclist Safety

405h – Non-Motorized Safety

HIGHWAY SAFETY PLAN PROCESS

In November of each year, a letter outlining the proposal process and priority program areas are sent to political subdivisions, state agencies, and non-profits. All statewide law enforcement and non-profit agencies are encouraged to participate actively in Arizona's Highway Safety Program. In addition to written notification, the letter and proposal guide is posted on the GOHS Website.

Proposals are due to GOHS through the GOHS grants process in early March.

Meetings with the GOHS Director, Deputy Director, Grant Manager, Fiscal Manager, and Project Coordinators to review the proposals take place from March through April. During these

**GOHS Grants Philosophy:
Grants for Performance**

- Is the proposal eligible for funding?
- Does the proposal address one or more of the priority area identified in the proposal letter?
- Did the submitted agency follow the guidelines set forth in Proposal Guide; e.g., the agency provided?
 - Data
 - Statistics
 - A cover letter signed by agency head
 - Other
- Has the agency previously been included in the Highway Safety Plan?
 - If yes, how did they perform?
 - Were narrative and financial reports completed in accordance with contractual requirements?

When evaluating grant applications, GOHS bases decisions on an agency's past performance. If an agency exhibits poor performance, operationally or financially, the agency is less likely to receive funding. Conversely, GOHS rewards top performing agencies with additional funding, if requested, and needed.

GOHS requires grantees requesting \$100,000 or greater and non-profit applicants to make formal presentations. These presentations provide agency background information and an overview of the project request. This process allows the GOHS Director and staff to ask questions and better assess the grant application. GOHS's policy is to fund all proposals that meet the criteria. Once the grants and funding levels are determined by program area, Executive Staff begins writing contracts so they can be sent to grantees by early September.

Agencies review grant contracts in September and gain approval (if necessary) from appropriate governing boards and councils. Once completed, the GOHS Director signs the contract and the agency can begin to incurring costs pursuant to the grant contract.
