**FY 2021 Tribal Consultation Annual Report**

Arizona Department of Administration (ADOA)

Report Period July 1, 2020 to June 30, 2021.

**Tribal Consultation Activities:**

Division: ADOA/ASET/Public Safety Broadband (FirstNet) and 9-1-1 Program

**FirstNet**

Goal	Objective	Activity and Performance Measure	Target Date
Improve public safety cellular communication coverage opportunities in the Arizona Navajo Community	Deployed FirstNet equipment build-out within the Arizona Navajo Community area to support emergency communication within the communities, fire and police.	FirstNet is reporting substantial improvements recognized by both fire and police departments within the Navajo Communities	Completed

**9-1-1 Program**

Provide funding opportunities for White Mountain Apache Tribes (WMAT) for Rural Addressing Development.	(WMAT) road centerline and address point data remediation and synchronization. This will help with their road network development that will support both NG911 & ADOT's business needs.	Meeting with (WMAT) stakeholders to council on objectives and integrate the created datasets into Next Gen Core Services to support geospatial call routing	March 2022
Supported Gila River Indian Community (GRIC) on synchronizing GIS with Master Service Address Guide (MSAG) and Automatic Location Information (ALI)	Council (GRIC) on achieving GIS to ALI/MSAG comparison which is a process that compares the GIS Data with wireline locations to ensure there are no discrepancies with NG911. The match rate should be above the 98% percentile for both address points and road centerlines	(GRIC) was able to score near 98% for both address points and road centerlines when matching with the ALI & MSAG.	September 2022

<p>Ensure all State 9-1-1 governed PSAPS are Text-to-9-1-1 operational compliant</p>	<p>Manage the implementation of Text-to-9-1-1 for the following State governed 9-1-1 PSAPS in Navajo, Apache and Pinal County's: White Mountain Apache Tribal PD, Apache County Sheriff's Office, Navajo County Sheriff's Office, Show Low PD and Gila River Indian Community.</p>	<p>Implementation of Text-to-9-1-1 was scheduled for implementation, testing and deployment by June 30, 2021. Completion of Text-to-9-1-1 was achieved for the entire State of Arizona governed PSAPS in March of 2021.</p>	<p>June 30, 2021 was the target date. The project and goal was completed in March of 2021.</p>
<p>Provide to all State 9-1-1 Program governed PSAPS managed services and provide PSAP 9-1-1 call data analytics and enhanced 9-1-1 event location mapping</p>	<p>Manage the implementation of RapidDeploy managed services through AT&amp;T, State 9-1-1 PSAP call data analytics and enhanced 9-1-1 event location mapping to the following State governed 9-1-1 PSAPS in Navajo, Apache, Pinal and Maricopa County's: White Mountain Apache Tribal PD, Apache County Sheriff's Office, Navajo County Sheriff's Office, Show Low PD, Gila River Indian Community PD, Fort McDowell PD and Salt River Pima Maricopa PD.</p>	<p>Deployment of RapidDeploy's 9-1-1 PSAP call data analytics and enhanced 9-1-1 call location mapping was scheduled for implementation, testing and deployment by March 30, 2021. Completion was achieved for all State and Tribal areas supported by 9-1-1 governed PSAPS by March 30th, 2021. Maricopa County has elected to not accept the use of the State sponsored 9-1-1 event location mapping opportunity for all Maricopa PSAPS including Salt River Pima Maricopa PD and Fort McDowell PD.</p>	<p>March 30, 2021 was the target date of completion. This was achieved for all Arizona PSAPS. Maricopa County leadership has elected to not use the RapidDeploy managed service provided by the State 9-1-1 Program specific to the enhanced 9-1-1 event location mapping system.</p>
<p>Deploy 9-1-1 Next Generation Core Services (NGCS), Emergency Systems Internet IP Network (ESInet) and Call Handling as a Service (CHaaS) to all State 9-1-1 Governed PSAPS</p>	<p>Install next generation 9-1-1 systems to replace current legacy systems for the following Tribal area State 9-1-1 governed PSAPS: White Mountain Apache Tribal PD, Apache County Sheriff's Office, Navajo County Sheriff's Office, Show Low PD, Gila River Indian Community PD, Fort McDowell PD and Salt River Pima Maricopa PD.</p>	<p>Deployment will include full NENA I3 standard compliance and is scheduled to begin July 2022 and complete by December of 2022 for all Tribal area State 9-1-1 governed PSAPS.</p>	<p>December 31, 2022</p>
